

OCTOBER 2019

NEWS

THE DEER INITIATIVE

IF YOU SEE AN INJURED DEER ON THE ROADSIDE

- Pull over at the next safe place.
- **Call the Police.** They will deal with road safety issues and have access to a specialist who will know the best course of action for the animal if it is alive.

IF YOU HIT A DEER WHILE DRIVING, YOUR PRIORITIES, IN THIS ORDER, ARE:

- Keep yourself and anyone with you as safe as you can.
- Park your car in the safest place with hazard lights on.
- Consider using it to also warn other road users.
- Call an ambulance if human injuries warrant it.
- **Call the Police.**

Usually it is best:

- Not to approach live deer. Doing so may cause them to run across traffic causing another accident.
- Not to move or handle live deer, you may be injured if they struggle.
- Not to try to keep the deer warm. Covering its head/eyes may keep it calmer if there is a long wait **but** see "approach live deer" above.

Graeme Barbour (Police, Digital Communications Officer, Hampshire)

Incentive to all Force Associations and London Boroughs to promote this offer - all Neighbourhood Watch members will receive a 20% discount on all items from this online shop until the end of December. <https://www.responseelectronics.com/>. Hampshire Discount Code at checkout to claim the 20% discount = NHWHAMP20

At the end of the three month campaign, the Force Association or London borough with the largest number of collective sales, having used the codes above, will win £1,000 worth of ERA equipment which can be auctioned off to raise money locally.

DRAGONS TEETH

As a result of verges suffering from overrun, Forestry England will commence work in October/November to remove old rotten or no longer serviceable dragon's teeth, and installing new ones closer to the road edge.

List of locations shown below. Maps pinpointing locations have been sent as separate attachments to this edition of the Bramshaw Telegraph. They can also be found on the Parish Council website bramshaw.org.uk.

SS1 Layby - entrance road to Fritham Lodge - move barrier down by cottage to roadside near layby - barrier re-positioned in line with the old bank line and reditch towards cross roads.

SS2 Straight Mile – D & B to road side to stop trespass and verge parking.

SS3 (Longbeech campsite – DT's to back of Longbeech Cottage, poss. D & B the other side of the house. Renew DT's - look at D & B to secure. Metal barrier has been installed.

SS3 Ocknell entrance extended, reduce bell mouth, remould bank, poss. DT's on removed layby, informal layby opposite to campsite - DT off, parking by A31 - fly tipping area - bank worn down through trespass - remake bank or DT off the lay by.

SS4 Rufus Stone – Lay bys - Either side of the road. Currently log placed A 31 end to stop trespass/parking - install barrier. DT both lay bys to stop further erosion of forest and unofficial use of bank to dump, access, poaching, scramble bikes and ON camping. Currently temp. signage directing drivers to Rufus Stone car park.

SS5 Sir Walter Tyrrell - move barrier to opposite the unused gate in to the Tyrrell car park, re do D & B/DT's closer to the road to remove unofficial lay by.

SS6 Bramshaw road to Lamb - DT triangle to stop vehicles cutting the corner and parking; also look to install measures towards the cattle grid as there are none in place currently. DT along the road to the Lamb, both sides where verge parking observed. Nomansland Cottage - DT opposite cottage moving DT's closer to the road and DT green in front of the property, reduce bell mouth. Looking towards the pub remake ditch and bank and bring closer to the road. Poss. move old car park barrier closer to the road. By Bus stop Chien Lunatique/Hill Top move DT's closer to the road, vehicles currently parking obscuring the bus stop. Look at erecting signage - no parking.

SS7 Nomansland to Pipers Wait – Parking around village green opposite the Lamb is maintained by PC. Reported that garage storing vehicles overnight/residents parking in area. Nomansland garage have been spoken too and an Estates licence to be issues to park 4/5 vehicles x 2 deep, all other verge parking opposite the garage to be removed by using DT's, make entrance smaller by barrier - bell mouth. Continue DT's towards Pipers Wait opposite new build to stop vehicle parking. Replace old DT's by garage in front of properties 2m apart up to new property, define access road to property both sides with DT's. At Pipers Wait both sides of the road re-profile the ditch bringing it closer to the road, grips on hill to ensure any surplus water goes into ditch/drain. Opposite Pipers Wait car park remake the worn down bank using surplus from ditching work. Continue Ditch and Bank work to stop verge parking by the car park and up the road towards Long Cross. At Nomansland going towards cattle grid install DT's by property and replace removed DT's - this bit is HLF passed to Rec. team.

SS8 Longcross - Verge restoration D & B up the road where old measures worn down, re-profile ditch closer to the road and spoil placed at roadside. At FC properties remove logs and DT.

SS9 Fritham - Originally looked at reducing the parking on the right by the pub, but any removal of parking needs to be part of the bigger picture for the parking provision in the area i.e. Fritham car park and RMS recommendations. GN reported that Police signage and CCTV would be installed at

Fritham car park in due course. First phase is to protect the green from trespass verge parking and further erosion. Look to move DT's closer to the road and replace rotten and missing ones, use low rails to stop illegal trespass by 4 x 4 & tractors. Continue measures towards Janesmoor.

SS10 Eyeworth Highlighted as a bad area for verge parking – Eroded lay by on Matt Davies beat could DT but would need to leave passing places. Early speckled orchid and poss. water main - speak to Matt. Need to be careful that any measure put in place on Sandy's beat does not have a knock on effect on Matts.

SS11 Fritham- Janesmoor Re do D & B, to stop verge erosion, cutting corners and trespass.

SS12 Fritham Cottage - Redo D & B and either continue D & B down to Old School House and Fritham Cottage, or renew DT's currently installed but rotten.

SS13 Fritham Nursing Home/Fritham Lodge - Move DT's closer to the access road to Fritham Nursing Home and DT other side to stop further verge erosion/trespass. Install barrier to allow access to the green.

SS14 – Barrier at Ocknell plain towards Holly Hatch – If possible reduce the size of pull in/bell mouth & re-angle barrier.

SS15 - Eyeworth – Powder Mill barrier - Move barrier forward, use bank on left going towards Godshill to help reinstate eroded gravel area and DT to close off and reduce bell mouth, Do same on the other side and DT up the road past the sign to the road.

SS16 – Bramshaw road to Longcross (Roger Penny Way) - Several eroded laybys and inclosure entrances - needing either closing off or narrowing with DT's

SS18 – Bramshaw Stocks Cross – Bramble Hill – Verge parking opposite Housing Assoc. houses on right hand side – DT The majority of the work identified in this MOSA will be done under HLS, although some will be done as regular FE maintenance.

ARE YOU A GOOD NEIGHBOUR?

Nominations have opened for the Neighbour of the Year Award 2019.

Following on from the success of last year's inaugural award, Co-op Insurance and Neighbourhood Watch are looking once again for people to nominate their neighbours who go above and beyond to help their community.

"The kind, every-day deeds of neighbours help create safe, secure and happy neighbourhoods where people, families and communities thrive. That's something we can all unite behind. I look forward to seeing the nominations to be reminded just how wonderful people can be."

Last year, Co-op members created criteria for what makes a good neighbour resulting in four traits which entries for Neighbour of the Year will be judged on. They are:-

- Good neighbours look out for each other, for example keeping an eye on the house
- Good neighbours are sociable and friendly - happy for a chat or a party invitation
- They're practically helpful - from taking in parcels to offering help with the plumbing
- They're kind, caring and respectful - more specifically thinking about the impact they have on neighbours

Nominate your neighbours at: coop.co.uk/neighbour2019

An opportunity for you to show an act of kindness: If you know of anyone locally who doesn't have access to email/the internet, why not print-off a copy of this Bramshaw Telegraph for them? One small gesture can make all the difference.

ANTI-SOCIAL BEHAVIOUR (ASBOS)

The Police and Crime Commissioners for Hampshire has published an excellent guide to Anti- Social Behaviour (ASB), which is consistently named as the main concern of residents throughout the County. ASB covers a broad spectrum of issues and sometimes it can be difficult to know who to report certain issues to.

The link below will take you to a guide to reporting these concerns and actions you can take to either prevent ASB or help your community to deal with it.

<https://www.hampshire-pcc.gov.uk/get-involved/taking-action/asb>

TRICK OR TREAT?

It's hard to believe that it's October already and that means the return of Halloween at the end of the month. Some of us like being visited by youngsters shouting "trick or treat" as they knock on our door, but many don't.

The link below will take you to a poster that people can put up in their homes which tells children **NOT to knock on their doors**. It does work in most cases so it's definitely worthy printing off.
