### NEWS

#### DRAGONS TEETH

As a result of verges suffering from overrun, Forestry England will commence work in October/November to remove old rotten or no longer serviceable dragon's teeth and will be installing new ones closer to the road edge.

List of locations (and maps) were sent out with October's edition of the Bramshaw Telegraph. They can also be found [here](#) and [here](#)

#### #Add3Minutes

Drivers are being urged to just #Add3Minutes as the nights draw in to make journeys safer. When the clocks change in October, and people have to drive home in the dark, there is a much higher risk of hitting one of the free-roaming animals.

**56 animals were killed on New Forest roads in 2017**

**63 animals were killed on New Forest roads in 2018**

Most of the accidents are caused by local people on regular trips, on four main routes:

- Lymington – Beaulieu – Dibden Purlieu
- Brockenhurst – Sway
- Burley – Picket Post
- Cadnam – Godshill

Sue Westwood, Clerk to the Verderers said "Driver should be aware that they are very likely to encounter animals on the Forest's roads, day and night. Animals don't have road sense so please help avoid accidents by driving slowly and carefully."

**Failing to report an accident with a commoner's animal can lead to prosecution. The Verderers offer a reward of up to £5,000 payable to anyone providing information which leads to the successful prosecution of a driver responsible for a hit and run accident.**

## BOOKS ON BRAMSHAW AND THE NEW FOREST

Many residents will remember Jack Sturgess who kindly donated a collection of books to the Parish Council. These books mainly relate to the history of Bramshaw, surrounding villages and the Forest in general. A complete list of the titles can be found [here](#).

If you would like to borrow any of these books, please contact Martin Vann either by email – [mjvann1@outlook.com](mailto:mjvann1@outlook.com) or phone 07824 867518.

## AMAZON PRIME SCAM

Action Fraud has received hundreds of reports of a scam where victims receive an automated phone call claiming they've been charged for an Amazon Prime subscription. The phone call informs people their personal details have been fraudulently used to subscribe to Amazon Prime, however they can cancel the transaction by pressing 1.

When victims do this, they are automatically connected to criminals posing as Amazon customer service representatives who remotely access their computer and steal their personal and financial details. What you can do to keep yourself safe:

### **Personal information:**

Always question uninvited approaches in case it's a scam. Instead, contact the company directly using a known email or phone number.

### **Stay in control:**

Have the confidence to refuse unusual requests for personal or financial information. It's easy to feel embarrassed when faced with unexpected or complex conversations. But it's okay to stop the discussion if you do not feel in control of it.

### **Remote access:**

Never install any software or visit a website as a result of a cold call. Unsolicited requests for remote access to your computer should always raise a red flag.
